

Anti-Trespass Panels

Product Benefits

- Proven physical and visual deterrent
- Developed with the rail industry to reduce on and off track crime
- Quick and easy to install on any surface
- Securely fixed to surface
- Will not break up
- Easily cut to fit around fence posts
- Reusable - easy to remove and relocate
- Maintenance free

Specifically designed to deter and delay access to prohibited areas, Rosehill Anti-Trespass panels are a proven physical and visual deterrent. Used across the globe for over a decade, the innovative design of the panels enables them to be quickly and securely installed on any surface, including concrete, asphalt, gravel, and grass.

Manufactured in the UK from 100% recycled rubber bonded with polyurethane for strength, the panels can be easily cut to fit around fence posts, and have a maintenance free lifespan of around 25 years. This robust construction enables them to be installed almost anywhere, removed and used again and again.

Technical Information

Manufactured from 100% recycled rubber and polyurethane, Rosehill Anti-Trespass panels are supplied complete with fixings.

Lifespan

25 years+ under expected service conditions and subject to correct installation.

Inspection & Maintenance

No maintenance of the product is required.

Regular installation inspections should check:

- That all panels are correctly positioned and supported
- All fixings are in place

Dimensions & Weight

Length **1484mm** Width **1300mm**
Height **147mm** Weight **80kg**
